

PAWAN PRATAP SINGH

pawan.ardom@gmail.com | +91 9151625909 | Delhi, India | linkedin.com/in/pawan-singh-a03178225

PROFESSIONAL SUMMARY

Results-driven Senior DevOps Engineer with a total of 13 years and 7+ years of relevant experience in DevOps engineering secure, scalable and highly automated cloud-native platforms across Microsoft Azure. Proven track record embedding security-as-code into every stage of the software delivery lifecycle — integrating SAST, secrets scanning, and compliance-as-code into CI/CD pipelines achieving zero critical vulnerabilities in production. Deep expertise in Kubernetes (AKS), Terraform, Helm, and multi-cloud infrastructure automation, reducing deployment time by 60%+ and provisioning effort by 70%. Experience implementing Zero Trust security models.

CORE COMPETENCIES & TECHNICAL SKILLS

Cloud Platforms	Microsoft Azure (AZ-104) · VPC, IAM, S3) · AKS · Azure Front Door · Azure Key Vault · Azure Container Registry
DevSecOps & Security	SAST · DAST · IAST · SIEM · TFsec · Checkov · Trufflehog · Zero Trust · IAM · Secrets Management · Microsoft Defender for Cloud ·
CI/CD & GitOps	Azure DevOps · GitHub · ArgoCD · Helm · Multi-Stage YAML Pipelines · Shift-Left Security · Secure Pipeline Design
Containers & K8s	Kubernetes (EKS, AKS) · Docker · Helm · Namespace RBAC · Network Policies · Pod Security Standards · Trivy · Clair · Container Image Scanning
IaC & Automation	Terraform (Modules, Workspaces, Remote State) · Chef InSpec
Observability	Prometheus · Grafana · Loki · Azure Monitor · Log Analytics · SIEM Alerting ·
Scripting	Bash · YAML ·

PROFESSIONAL EXPERIENCE

Transtrack Aroservices Pvt. Ltd. | Sep 2026 to Present

Built and maintained secure CI/CD pipelines using Jenkins and Azure DevOps, automating build, test, and deployment workflows across environments.
Managed containerized applications using Docker and Kubernetes (AKS), implementing Deployments, Services, Ingress, RBAC, and namespace-level configurations.
Automated Azure infrastructure provisioning using Terraform, including VNet, NSG, AKS, ACR, Key Vault, and Load Balancer resources.
Implemented Kubernetes ingress, DNS, TLS/SSL certificates, and network configurations for secure application exposure and traffic routing.
Monitored and troubleshot CI/CD pipelines, Kubernetes workloads, container issues, networking, and production deployment failures.

Reliance Industries Ltd | Feb 2022 – Sep 2026

- End-to-end secure CI/CD pipelines using Azure DevOps multi-stage YAML and Jenkins, embedding SAST, secrets scanning and DAST as mandatory PR gate controls — zero critical vulnerabilities in production over 12+ consecutive months.
- Designed and enforced a Zero Trust security model across 8+ cloud environments: IAM least-privilege, Azure AD Conditional Access, Kubernetes RBAC, and network micro-segmentation — reducing unauthorized access incidents by 45%.
- Built centralized Terraform module library (VNet, NSG, AKS, ACR, Key Vault, Load Balancer) with remote state locking in Azure Blob Storage — eliminating configuration drift and cutting provisioning time by 70%.
- Orchestrated containerized microservices on Kubernetes (AKS) using Helm with namespace-level RBAC, Pod Security Standards, and Network Policies — maintaining 99.9% availability of SLA across production workloads.
- Led container image security hardening — integrated Trivy and Clair in CI pipelines, enforcing policy blocks on HIGH/CRITICAL CVEs before promotion to ECR/ACR registries.
- Performed VM capacity planning, performance monitoring, and resource optimization (CPU, Memory, Storage) for enterprise workloads, improving system reliability, and reducing infrastructure costs.
- Built reusable automation scripts using Shell Scripting for log analysis, health checks, backup validation, and system maintenance, reducing operational overhead and improving system reliability.
- Mentored 4 DevOps engineers in DevSecOps best practices and shift-left security — uplifting team security maturity score by 40%.

Aerial Telecom Solutions Pvt. Ltd | Aug 2021 – Feb 2022

- Designed and maintained CI/CD pipelines (Jenkins, GitHub Actions, GitLab CI) with embedded SAST scanning — accelerating release cadence by 35%.
- Containerized 15+ application services with Docker/Kubernetes Helm, eliminating environment-specific failures across all deployment stages.
- Managed Terraform remote-state IaC infrastructure; integrated pre-commit hooks for static security analysis on all IaC changes.
- Configured Prometheus and Grafana dashboards for real-time monitoring — reducing unplanned downtime by 25%.

Ardom Towergen Pvt. Ltd | Nov 2019 – Aug 2021

- Led end-to-end migration of legacy telecom workloads — improving availability of SLA from 99.5% to 99.9% with elastic horizontal scaling.
- Kubernetes microservices with HPA and resource quotas — improving resource utilization by 30%.
- Provisioned infrastructure with Terraform and AWS CloudFormation — reducing manual provisioning errors by 80%.
- Managed 50+ VMware vSphere VMs across production and staging with VLAN isolation and high availability configurations.

B4S Solutions Pvt. Ltd | Jun 2016 – Nov 2019

- Managed and CIS-hardened 100+ Linux servers (CentOS, RHEL, Ubuntu) and VMware ESXi hosts — maintaining 99.95% uptime.
- Implemented automated DR procedures — cutting RTO from 4 hours to 45 minutes (81% improvement).
- Maintained zero security breach events over 3 years through firewall, ACL, VPN, and IDS hardening.

Kutumbh Care Pvt. Ltd | Sep 2015 – Apr 2016

- Managed Linux and VMware ESXi environments including VM lifecycle, snapshots, and resource allocation for high-availability workloads.
- Configured vSwitches, VLANs, and firewall rules ensuring workload isolation and network security compliance.

Ardom Telecom Pvt. Ltd | Jun 2014 – Aug 2015

- Administered Linux server environments: user management, system monitoring, security patching, and backup/recovery.

Team Lease Pvt. Ltd | Nov 2013 – May 2014

- Configured devices for LAN/WAN telecom infrastructure.
- Automated network diagnostics with Python scripts — reducing troubleshooting time by 20%.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Microsoft Certified: Azure Fundamentals (AZ-900) — Microsoft

EDUCATION

Bachelor of Technology (B-Tech) 2009 – 2013

Intermediate (12th Grade) 2006 – 2008
